- linkedin.com/in/johnwayne11
- Waynenyarky (Wayne)

TECHNICAL SKILLS

- UI/UX
- Film Making
- Photoshop
- Computer Programing
- Microsoft Excel
- Microsoft Word

PROGRAMMING LANGUAGES, TOOLS & FRAMEWORKS

- Python Programming Language
- HTML, CSS and JavaScript
- Figma
- LinkedIn
- Visual Studio Code (VSC)
- Kotlin
- Flutter

CORE WORK SKILLS

- Communication Skills
- Critical Thinking
- Time Management
- Teamwork and Collaboration
- Digital Literacy

PROFILE SUMMARY

Enthusiastic and dedicated IT student with a passion for technology and a strong foundation in computer science. Currently pursuing a Bachelor of Science in Information Technology at PHINMA University of Pangasinan, with a focus on Programming. Possesses a solid understanding of programming languages such as Python, along with hands-on experience in Visual Studio Code. Proven ability to adapt quickly to new technologies and learn on the fly, demonstrated through successful completion of coursework and personal projects. Adept at collaborating with peers to solve complex problems and contribute to team projects. Keen interest in Cybersecurity, Web Development, Software Development with a goal to deepen knowledge and skills in this domain.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY
PHINMA Araullo University | August 2023 - June 2027

PROJECTS

BMI CALCULATOR

Python - GUI | November 1 - 30
VS Code | Python | Photoshop

A Body Mass Index (BMI) Calculator is a software tool designed to assess an individual's body weight relative to their height, aiding in the evaluation of health and fitness.

- User-Friendly Interface: Intuitive design for easy input of height and weight information.
- Real-Time Calculation: Instantaneous BMI computation for quick and convenient results.
- Multilingual Support: Accessibility for users of different languages, enhancing inclusivity.
- Health Classification: Clear categorization of BMI results into underweight, normal weight, overweight, and obesity.
- Graphical Representation: Visual depiction of BMI ranges for better interpretation.
- History Tracking: Ability to save and track historical BMI data for long-term health monitoring.

CALCULATOR

Python - GUI | August 2023 - October 2023
VS Code | Python

Calculator is a versatile software tool designed for performing basic and advanced mathematical operations with precision.

- User-Friendly Interface: Intuitive design for effortless input and output of mathematical expressions.
- Basic Operations: Addition, subtraction, multiplication, and division functions for fundamental calculations.

CRUD MANAGEMENT SYSTEM

HTML, CSS, JavaScript - Web | January 2024 - March 2024
VS Code | HTML, CSS and JavaScript | Figma

- A CRUD Management System is a software application for managing data through Create, Read, Update, and Delete operations:
- Data Management: Streamlines the process of adding, viewing, modifying, and deleting records.
- User Interface: Provides an intuitive interface for efficient interaction with data.
- Data Integrity: Ensures consistent and accurate handling of information across operations.

ENRIQUE, JOHN WAYNE M.

MOBILE DEVELOPER | PROJECT MANAGER

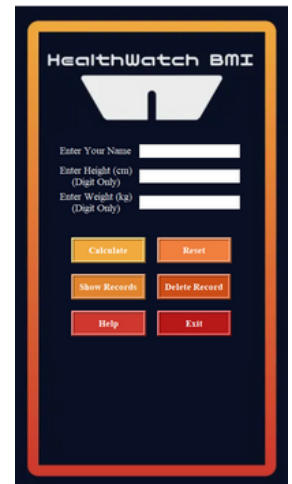

HEALTH WATCH BMI

1st Year Project

2023

VS Code | Python | Photoshop

Role: Developer

Nazareth Doctor Appointment

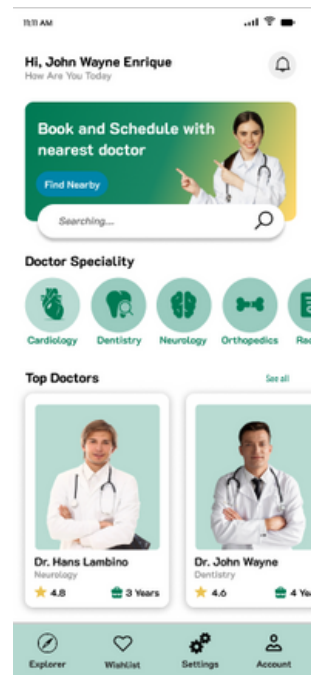

2nd Year Project | 1st sem

2023

Android Studio | Flutter | Photoshop

| Figma

Role: Lead Developer

CupFe Espresso

2nd Year Project | 2nd sem

2025

Android Studio | Kotlin | Figma

Role: Lead Developer
